

TIME FOR THE HERO TO SHUT UP

(August, 09, 2017) - John McCain, the Navy Pilot, is a *bona fide* US Grade-A, All-American Hero. There is no doubt in my or any red-blooded American's mind. You try being in a North Vietnamese prison camp and give up your chance to leave in favor of a fellow prisoner.

But John McCain the Senator is dying, and there is something about going into "that good night" that causes rage and a sense of unfairness which is not just illogical. I'm not talking about his protest vote about killing Obamacare which deserves to be ended, even without replacement. No, I'm talking about his statement, today, which gave aid and comfort to our enemy, North Korea, by intimating that the United States of America is not ready or capable of wiping out the small, but extremely dangerous, pain in the butt, clapped under the protecting ass of China.

Senators John McCain (R-AZ) and Lindsey Graham (R-SC)

America IS capable of raining "Fire and Death" upon the shrimp with atomic missiles. There is NO WAY that the DPRK would survive as a civilized entity once the MOABs and FOABs started raining. We don't even need nukes to

reduce North Korea to a burning cinder. There is no cave L'i'l Kim can hide in, no secret hiding place that we do not know about, no amount of money that the Ugly, Fat Midget can pay to avoid total obliteration.

Yes, it is true that Obama left us with our military fly unzipped, but in six months, many of his military-killing measures have been erased, and all of our missiles are ready to destroy any enemy we choose. In two years, ALL the guidance systems which have not already been updated, will be replaced with hardened 21st century super-systems.. unless, of course, the Democrats manage to destroy the last vestige of American Will which Trump represents.

McCain, and his too-close friend, Lindsey Graham, are just plain wrong about bargaining with the DPRK, Graham less so, but his support of the President is vague. We've done that, been there, and gotten the T-shirt. IT DOESN'T WORK. Let me repeat that: TALKS WITH THE DPRK DO NOT WORK.

Completely destroying the Democratic People's Republic of Korea WOULD work, **but we are not they**, so we won't hit first. But let one nuclear missile aimed at the US or our friends let fly, and we will knock it down and there will be no more DPRK. Period. The END. Senator Graham? Don't Say it. Senator McCain? SHUT UP! History will honor you, both, for it.
